MONIL BAXI

Jersey City, NJ | monilbaxi@gmail.com | (201) 284-8285 | linkedin.com/in/baxi-monil-explore

PROFESSIONAL SUMMARY

Results-driven Software Engineer with experience building RESTful APIs, scalable backend services, and full-stack web applications using Python, Java, Node.js, Express.js, React.js, MySQL, MongoDB, and PostgreSQL. Strong foundation in data structures, algorithms, object-oriented programming, and software engineering principles. Pursuing a Master of Science in Computer Science at NJIT.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, MVC Architecture

Frontend: React.js, Angular

Databases: MySQL, PostgreSQL, MongoDB

Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Software Engineering

Tools: Git, GitHub, Postman, Linux, Agile, Scrum

WORK EXPERIENCE

Full Stack Developer Intern

Great Software Laboratory (GS Lab) | Vadodara, Gujarat, India | February 2022 - July 2022

- Designed and enhanced backend-integrated UI components using Angular and Node.js, reducing customer-reported issues by 30%.
- Developed and expanded RESTful APIs to support multilingual product functionality, improving product accessibility by 40%.
- Resolved 50+ production bugs across backend services, improving overall system stability and reliability.
- Implemented backend data processing logic for CSV conversion pipelines used in cloud-based contact center analytics.

PROJECTS

Invoice Management System

- Developed a **multi-tenant SaaS billing platform** using Next.js, Node.js, PostgreSQL, and Stripe with role-based access control, invoice lifecycle management, and automated payment workflows.
- Built an **automated billing pipeline** using BullMQ, Redis, and node-cron for scheduled payment reminders, recurring invoices, and PDF generation via Puppeteer and SendGrid.
- Containerized the application using **Docker** and implemented a GitHub Actions CI/CD pipeline with automated Jest testing and deployment across Next.js, Node.js, PostgreSQL, and Redis services.

Restro - Restaurant Management Planner

- Developed a **restaurant management API** with Node.js, Express.js, and MySQL, improving query performance by 35% through backend indexing.

EDUCATION

Master of Science in Computer Science

New Jersey Institute of Technology (NJIT) | Newark, NJ | September 2024 - Present | GPA: 3.444/4.00

Coursework: Advanced Programming, Data Structures and Algorithms, Database Systems, Software Engineering

Bachelor of Engineering in Computer Science and Engineering

The Maharaja Sayajirao University of Baroda | Vadodara, India | July 2018 - May 2022| GPA: 3.97/4.00

CERTIFICATIONS

- Artificial Intelligence and Machine Learning for Industry - Indian Institute of Technology Delhi (IIT Delhi) | Feb 2024 - Jul 2024
- Web Development - MyCaptain | June 2020 - July 2020
- Android App Development in Java - MyCaptain | May 2020 - June 2020
- Google AI Explore ML - Beginner and Intermediate Levels | November 2019 - February 2020

INVOLVEMENT

Programming Facilitator - MyCaptain | July 2020 - August 2020

- Taught C++ programming, algorithms, and problem-solving techniques to 200+ students; achieved 95% student satisfaction through structured mentoring and technical support.
